**CHOOSING O.O. BOGOMOLETS NATIONAL MEDICAL UNIVERSITY, KYIV- MESSAGE FROM THE HON. RECTOR  
PROF. AMOSOVA K.M**

*corresponding member in NAMS of Ukraine, Doctor of Medicine,  
professor, Honorary Scientist and Technician of Ukraine, laureate of  
State Prize of Ukraine*

“ NMU is one of the best universities of its kind given the vast array of diversity in spheres of international relations and a multitude of student culture. Studying here provides one with a unique opportunity of his or her lifetime to immerse into the rich cultural, social and ethnic variance which is essential for a doctor to experience as a budding team member. The core essence of NMU lies in its excellent academic programs and foreigner friendly environment which has always welcomed meritorious foreigners with an open heart and a smile. The ambience is furthermore accentuated by a number of university social clubs, sororities and student councils whose tireless effort makes it possible for natives and foreigners alike to bind into seamless harmony and fraternity. A world class academic institution by its own merit, NMU ranks among the top medical universities in the world residing at par with the major Ivy League Schools of the Western hemisphere. Along the way, you shall forge friendship, build relations, make acquaintances and create connections that shall last you for a lifetime to remind you that Kyiv never forgets who touches her heart and stirs her soul.

KYIV - THE PERKS, THE LIFE

## **KYIV - the perks, the life, the standards and the possibilities**

Kyiv, the crown jewel located in the heart of Europe, exudes a majestic aura that strikes visitor and dwellers alike with wonder and awe. Built in the early 882 AD, this monolithic city is counted among one of the oldest in the world and had been home to some of the best known primeval human civilizations. The architecture is a seamless blend between the modern and the medieval opulence.

Predominantly a Christian state this grandiose city hosts almost 3 million people and boasts of one of the best public transport systems in the world.

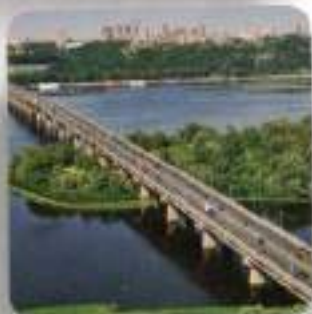

The city is well connected by underground subway system which is branched into 3 separate lines, which grant its citizens access to almost all stretches of the city without having to resort to surface transportation which is supposedly one of the busiest in the world.

Kiev extends her arms to all irrespective of social class, creed, sect or nationalities. In accordance to the recent consensus there are residents and ethnic groups from 130 nations all over the world currently residing in Kiev and finding a place of refuge. The living standards are reasonable compared to the rest of Europe given Ukraine's high currency value and well placed government subsidies.

Modern Kiev is a collage between the old and the new. The ancient heritage of the Kiev-Russ regality is only accentuated by the neo-modern iconic architectures and state of the art technological advances. Most of the heritage building have been preserved to its former glory and has been acclaimed by UNESCO as part of the World Heritage Site.

The city itself is dotted with hyper malls, megamalls and shopping complexes to cater to every need of the people living here and more.

THE UNIVERSITY AT A GLANCE

## NMU - AN EXPERIENCE

O.O. Bogomolets National Medical University, Kyiv is hailed as one of the best medical institutions not only in Ukraine but also in Europe. Situated in the heart of the cosmopolitan city of Kiev, this university has been the destination of choice for thousands of students from all over the world. This institution of excellence enjoys a world class reputation as a premium centre of learning. Graduates from this university are to be found in every 4 countries working as highly successful medical professionals ranging from surgeons, intensivists, general practitioner and clinical researchers. Keeping at par with the latest medical innovations all around the world, this university provides its laureates and students state-of-the-art research facilities and equipments. Extraordinary medical feats are performed by its distinguished alumni at This academy is known for its high standard of education and rigorous assessment policies which ensure optimum standard of education and training.

We understand that graduates from this university shall be held responsible for the lives of millions tomorrow, so we are due towards humanity to prepare them to match international standards. Students of NMU are trained not only to be oriented only towards academics but also extra-curricular activities such as debates, extempore, team work, entrepreneurial ideas, creative work and charitable pursuits. We aim towards an overall healthy development of mind and body of our students at our university.

Studying in NMU is not just about learning, it is about growing up with an all round development. We do not just create doctors; we mould and nurture them to be compassionate human beings dedicated towards serving humanity as a whole, rising above and beyond personal interest. NMU is not just a university it is a way of living.

UNDERGRADUATE MEDICAL FACULTY

## UNDERGRADUATE MEDICAL FACULTY

The medical faculty at NMU boasts of one of the most sought after course in the country and in the continent of Europe. The medical school is equipped with state-of-the-art teaching devices in each of the 10 lecture auditoriums within the university premises and world-class laboratories providing students with the necessary technological and clinical know how. The medical school is a conglomerate of 12 faculties, presiding over 7 institutions and 137 super specialty medical centers spread all over Kiev, 78 departments and 30 sub divisional departments.

The school employs 1,200 scientists and teachers; among them 137 are professors, 188 associate professors, 341 assistant professors and 719 lecturers. Apart from them, over 200 academicians and corresponding members of higher education board of Ukraine, laureates of State Prize of Ukraine, honorary Readers and professor emeritus adorn the academic positions of this university. The student body of the medical school alone is 13,000 students strong, consisting of both native Ukrainian students and foreign students hailed from all the corners of the world.

The degree awarded to medical students at the end of their 6 years of training is M.D. (Doctor of Medicine, in accordance to WHO and Avicenna Directory) and it makes them eligible to practice in any country in the world after appearing and successfully passing their respective medical licensing examinations.

The university is proud to reveal that every one of four countries in the world has medical graduates from this institution of excellence as a flourishing medical practitioner. This has been made possible by the sheer superior quality of education imparted at this institution and rigorous training courses to season the students with the grueling world of clinical practice.

Students are encouraged and motivated to think independently and creatively. The education is not only textbook oriented as taught in the practical classes and in the auditoriums, but also real-life, clinically oriented problem based learning.

The students of NMU can choose either to live in the university dorm or rent an apartment in the city under knowledge of the university. The price of living in the dorm and living in an apartment may differ substantially given that the latter is charged privately by the owner and not mediated upon by the university. But the student can always ask for assistance at the student consultation desk at the university.

The university owns 7 dormitories within the city of Kiev both for undergraduate and graduate students. Each of these dorms is equipped with fully furnished kitchens for the students to use along with study hall and wi-fi internet connectivity.

### STUDENT ACCOMMODATION

NMU students have access to an online library that provides them a complete list of textbooks, journals, and references. These resources and passwords are given upon completion of registration. Only the students who are accepted to the university can access these resources, which are available 24/7.

ONLINE

Unique access to  
portal which offers  
array of medical  
lectures and  
access code and  
the student on  
admission procedure,  
access to the codes  
is transferrable.

The university enjoys a global partnership with many eminent educational centers of the world which readily provides it with valuable assistance in field of academics, research, student exchange programs, conferences and clinical workshops. Every year the university receives a substantial number of visitors who are academicians, students or researchers. Some of the partnerships are:

**Universidade do Algarve ( Portugal )**  
**Universita' di Bologna ( Italy )**  
**Universite Bordeaux 1 ( France )**  
**Humboldt Universitat zu Berlin**  
**( Germany )**

STUDENT LIFE AT NMU, KYIV  
STUDENT CULTURE AT NMU

Global Medical Foundation: 9899065852 / 9999404348. Website: <http://gmfadmission.in>

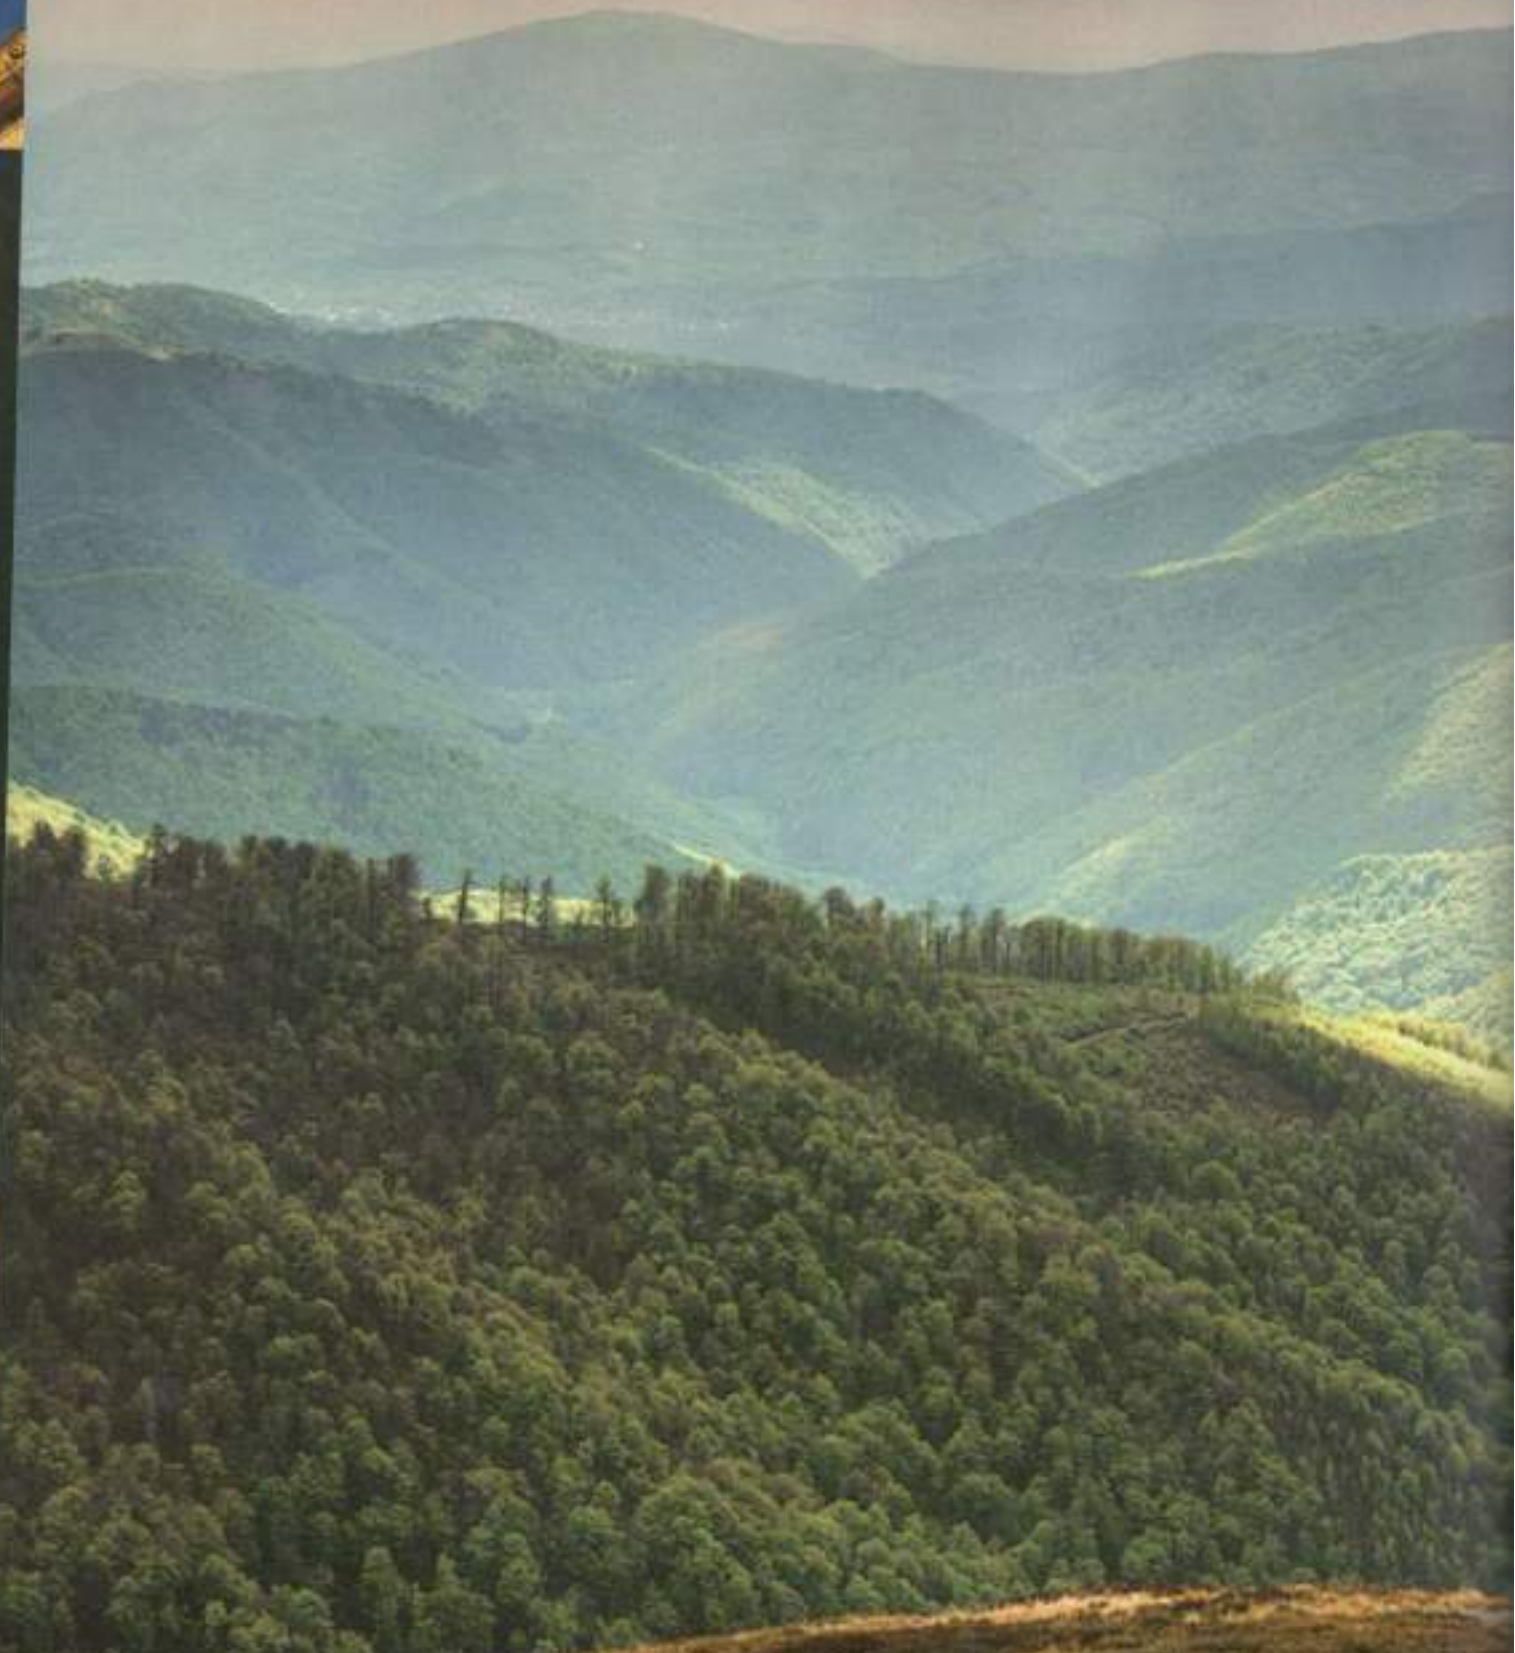

## STUDENT LIFE AT NMU, KYIV

It is only imperative that living in Kiev is an experience of a lifetime. This vibrant city with all its majestic glory and historic enigma also portrays a true cosmopolitan nature which provides our students with all the amenities one might need. The city is studded with libraries, art galleries, museums, theater halls, philharmonics and cultural houses to name a few. To retain the old age European saga, the city is specked with bistros, cafes and pub which even though are modern to the core yet retains the eliteness of its past and of the city. To provide a recluse to the eyes, the city is touched with greenery by its numerous public parks and orchards that provide safe haven for students to mingle and attune with nature. For the adventure seekers, this city has no shortage of nightlife activities for the young hearts to pursue.

## STUDENT CULTURE AT NMU

One of the oldest student sorority and research group in Europe, O.A. Kysil Student Council was founded in 1881 by a famous pediatrician and statesman A. Kysil. Later this council became one of the most well known student research body in Europe under the able administration of its succeeding presidents and NMU overseeing body. Students from NMU are encouraged to be research oriented along with being academically sound. O.A. Kysil student council provides students with the state of the art facilities with up to date research program know how. It supports students to perform their independent projects and exhibit their talents at international platforms in the form of workshops, conferences and seminars.

### DO YOU KNOW?

The center of Europe is in Ukraine! The geographical center of Europe is in the western Ukraine in the small town of Rahov which is in a picturesque place among the Carpathians Mountains.

# 12

**GROUP ORIENTED CLASS  
STRUCTURE**

## **GROUP ORIENTED CLASS STRUCTURE**

Students in NMU are not taught in classroom settings with a large number of students as seen in most countries and academic programs. Instead, they are divided into smaller groups with individual lecturers for each subject for more detailed attention towards each and everyone in the group. The number of students in each group generally varies from 10-12 members and each of them is assessed separately in order to maximize their potential and motivate them simultaneously.

## **INTERNATIONAL STUDENT LIAISON AND CAREER COUNSELLING**

Each and every foreign medical student at NMU is attached to the university foreign student department and shall have access to a liaison that would be responsible for their overall well-being during their stay in Ukraine. The liaison shall be informed about the students' overall progress and shall act as a mentor and guide in case his or her progress needs an impetus. It shall be expected of the students to get in touch with the liaison for any reason whatsoever to facilitate their living and learning in Kiev and Ukraine. The services that students shall be entitled to, are:

- Student archives and documents
- Student alumni association
- Student health services
- Student career advisory
- Student's union
- Student counselling services
- Student orientation program
- Student accommodation services

# 13

**UNIVERSITY & LIVING  
EXPENDITURE FOR STUDENTS**

## UNIVERSITY EXPENDITURE

Various faculties have different fee structure for teaching in different medium of languages.

Faculty of General Medicine in English - 4300 USD per annum

Faculty of Dentistry in English - 4500 USD per annum

Preparatory Faculty - 2500 USD per annum

The cost of university library and equipments are included in the university fees. The cost of mandatory student health examination after commencement of each academic year shall be borne by the students either separately or along with the cost of medical insurance.

For details on complete cost, please write us at [info@nmu-kiev.com](mailto:info@nmu-kiev.com)

## LIVING EXPENDITURE

\* It should be noted that the expense sum indicated below are estimated values only and should NOT be considered as absolute yardsticks given fluctuation of currency rates and inflation.

\* This estimation is given on a monthly basis

Parameters	Student living in DORM	Student living in APARTMENT
Transportation	\$ 50	\$ 70
Food	\$ 150 - 200	\$ 150 - 200
Rent	--	Varies by the owner.
Miscellaneous	\$ 100	\$ 100 - 150
